LEGEND

Here is a quick explanation of the piece layout
The top panels are the main skin of the kite
The middle panels are the leading edge tube sections
The main skin joins the LE tube at the seam on the LE tube
The lower panels are the attachment ribs
Note - the LE to TE seam is on the top of the rib
The lower edge of the drawing rectangle of paper is the
  endpoint side (outside edge) of its panels
Note: the Kiwi is shown anticlockwise. Sheet mat tension is sewing line

Please check and compare any relevant patterns
