LEGEND

This is a quick explanation of the pieces labels.
The top piece is the main part of the tube.
The tube pieces are the shading edge, tube and base.
The tube pieces are numbered from the base to the top.
The upper pieces are numbered from the top.
Thus, the 1st to fit goes on the top of the tube.
The pieces are numbered in the order they are to be stitched with shading edge first.
Thus the tube is open bottom, from the bottom to taping the top.

Tube pieces are shaped to overall profile.
CHECK you if these pieces for any unnecessary curves.
Curves should be avoided in regards of the capabilities of the sailmaker, or a product may be difficult.
