

**FEATURES:**

- solid brass
- unique barrel design
- 5mm diameter x 15mm overall length
- installation requires cutting 45° in both stock pieces
- has glue retention line for securing in place with epoxy glue
- sold in packages of ten
- can be used with 3/8" or thicker stock (is commonly used on 1/2" stock)
- made by Brusso

**APPLICATION:**

This small, low profile cylinder hinge is ideal for pen and pencil set boxes or jewelry or other small boxes.

**SPECIFICATIONS:**

Drawing enlarged to show dimensions.

**Installation**

1. Locate and drill 5mm dia. x 7.5mm deep hole at each hinge position
2. Bevel side of stock to 45° as shown
3. Place small amount of epoxy glue in each hole
4. Insert hinges. (Make sure hinges are positioned to allow top to pivot correctly)
