

Thank you for buying our Patterns!

Make sure that your printer is set up correctly before you start to print, this will save you paper and time. What is most important is that you use **Adobe Acrobat Reader** to print out your pattern. Adobe Acrobat Reader is free software you can download out of the Internet.

Our Internet side will inform you of all the important information you will need.

Please watch our video, it will also help you:

Our instructions are written in great detail. Please read them through first before deciding whether to print out a part or all of them.

Patterns you have purchased via our shop www.zierstoff.com are permanently saved in your [zierstoff.com](http://www.zierstoff.com) account and can be downloaded at any time.

It is important that patterns you have purchased via Dawanda, makerist or other markets should be saved, because unfortunately a permanent download is not possible.

The further distribution of our patterns is prohibited!

Enjoy sewing!
