

BILL OF MATERIALS: PRESSURE VESSELS AND REINFORCEMENT

BUILDING PRESSURE VESSELS:

Materials:

- Plastic bottles [amount depending on rocket size]
- Polyurethane-based adhesive, for example:
 - PL Premium ([Amazon.com](https://www.amazon.com))
 - Ponal PUR 12 ([Amazon.com](https://www.amazon.com))
 - Sikafelx 11FC [*only combined with reinforcement!*] ([Amazon.com](https://www.amazon.com))
- A piece of paper
- Sand paper
- Solvent for cleaning
- Tape
- Gloves
- Toothpicks
- Kitchen paper

Tools:

- Marker pen
- Water and towels
- Vise / jig made of PVC pipes
- Scissors

REINFORCING PRESSURE VESSELS (OPTIONAL)

Materials:

- ☐ Fiber glass approx. 80g/m² ([order it here](#))
- ☐ Resin ([order it here](#))
- ☐ Paint roller (made of foam)
- ☐ wet and dry sandpaper

Tools:

- ☐ Scissors
- ☐ marker pen
- ☐ Ruler (as long as possible)
- ☐ Vise / jig made of PVC pipes

To succeed with the construction of a water rocket, you will have to work very precisely and carefully. Especially some of the adhesives and resins are pretty dangerous. Thus, please wear gloves when working with adhesive or epoxy and don't breathe in the gases. It is recommended to work outside whenever toxic gases could develop. The launch of a water rocket may needs permission from the competent authority, depending on your location. You need the permission of the landowner if you launch on foreign territory. Please wear safety goggles when pressure testing or launching your rocket. Keep a safe distance to the pressurized rocket.
