----------------------------	--

Q2 I have a thorough understanding of real life applications for blockchain. 0 = Not at all 10 = I know several real life applications.

0 1 2 3 4 5 6 7 8 9 10

Click to write Choice 1 ()	
----------------------------	---

Q3 Information stored in a blockchain can be modified later.

- True (1)
- False (2)
- I am not sure (3)

Q4 Blockchain prevents fraudulent changes to the ledger from occurring.

- True (1)
- False (2)
- I am not sure (3)

---

Q5 Which of the following describes the blockchain ledger?

- Distributed (1)
  - Append-only (2)
  - Transparent (3)
  - Anonymous (4)
  - All of the following describes a blockchain ledger (5)
- 

Q6 A central authority ensures the validity of blockchain transactions.

- True (1)
  - False (2)
  - I am not sure (3)
- 

Q7 Only certain individuals on the blockchain can see the transactions occurring.

- True (1)
  - False (2)
  - I am not sure (3)
-

Q10 If a private key is lost, it can be retrieved from the central server.

True (1)

False (2)

I am not sure (3)
