

# Business Sign Class Project

Congratulations you are the owner of a brand new business. There is only one small problem, no one knows what your business does or makes. To help educate people about your new business, you need to design a sign that will be displayed outside of your building. At the unveiling of the sign you'll need to give a brief speech on your business to help further explain what it is that you and your business do. Please review the criteria and constraints for the design of your sign and speech. Then, review the items that need to be completed and submitted below.

## Sign Criteria

- You will have two 1/8"x 24" x 12" pieces of cardboard to use for your sign.
- Sign must be related to what your business makes/does.
  - Your assigned/chosen topic
- Must display your company name
- Only allowed to use three different colors
- Sign parts must be able to be cut out of the laser cutter in less than 10 minutes.

## Speech Criteria

- One to three minutes
- Explain what service you provide or product you make
- Explain the process used to make your product or provide your service
- Explain how your sign represents your topic

## Order of tasks to complete and submit (Each task must be approved before moving to the next one)

- Decide on your topic and what your business does/makes
- Come up with a name for your business
- Sketch out a minimum of three ideas for potential business signs
- Create approved sign in CAD software
- Run your sign parts in the laser cutter
- Glue your sign together
- Present your sign to the class with your speech
