

Dive Plan

Maximum Dive Depth: _____ ft

Dive Time: This table is only a reference for your first dive. For consecutive dives be sure to refer to your RDP

Depth	Dive Time
30'	90 minutes
60'	55 minutes
90'	20 minutes

Time of Descent: _____

Expected Surfacing time: _____

Be aware of safety stops if diving below depths of 30'. These may be found more accurately on the RDP.

Guidelines for safety stops

For Divers at the depths and dive times listed above, safety stops must be taken for five minutes at a depth of 15'

It is recommended to make an additional safety stop for divers 90' or deeper at about 50' for 1 minute.

Be sure to discuss:

- General navigation plan, shape of reef structure
- Marine wildlife to be aware of (both dangerous and fragile)
- Docile wildlife may be discussed as well as this may make the dive more enjoyable
- Where you will meet at the surface once you drop in
