

### **Joystick Potentiometer Drilling Template**

Print the PDF version of this template at 100% magnification and tape it to the LeMotech box.

For the Axxico Joystick Potentiometer JH-D202X the center hole dia. is 41mm and the mounting holes are 2.5mm on 32.5mm centers. These four holes are at the corners of the inner square.

The dashed circle shows the outside diameter of the bezel which attaches to the body of the potentiometer.
