## Easter Bunny

Here's a great project to keep the kids entertained during Easter. Don't be fooled by his oh-so-cute exterior, this little bunny has a rather mischievous personality. Open his mouth and you may discover he's hidden chocolate goodies inside where he thinks no-one can find them! Sshh... don't tell anyone.

Our Easter Bunny is made from very simple materials found around the home and Makedo parts available at [mymakedo.com](http://mymakedo.com)

### · Find · Punch · Connect ·

**1** Source materials from around your home. For this creation we used an egg carton, kitchen sponges and lids to make the bunny's head, and a small cookie box for the body.

**2** To begin making the head, use the Makedo Safe-saw and punch 2 holes on the top of the egg carton. This will be where the ears are attached.

**3** To create the ears, cut the sponges in a leaf shape and connect them to the top of the egg carton using Makedo Re-pins and Re-clips.

### · Punch · Connect ·

**4** Punch 2 holes on the front of the egg carton for the eyes. Punch a hole in the centre of the lids and attach them to the egg carton using Makedo Re-pins and Re-clips.

**5** Now it's time to give your bunny a body. Use the Makedo Safe-saw and punch 2 holes on the bottom of the box. This is where the head will connect to the egg carton. Use these holes in the bottom of the box to locate where to punch holes under the egg carton.

**6** Place a Makedo Re-pin through the box and thread it through the egg carton. Secure the Bunny head to the body with a Makedo Re-clip.

### · Connect · Share ·

**7** Your Bunny is almost complete! The final touch is to add some cute rabbit features. Using the template that Makedo has supplied, cut out the shapes and fold on the dashed lines. Attach the features to your Bunny with Makedo Re-pins and Re-clips.

**8** Your Makedo Easter Bunny is complete! Take it for an Easter scavenger hunt or hide all your Easter chocolate goodies inside its head where no-one will find them.
