Baboon Mask

You can become the cheekiest critter in the animal kingdom with a colourful Makedo Baboon Mask.

We created our Baboon Mask out of recycled materials and Makedo parts available at mymakedo.com.

- Find - Cut - Connect -

1 Gather your materials and print out the Baboon Mask template. Carefully cut out all template pieces, and punch all holes as marked on the template.

2 Decorate the pieces of the mask. We looked up some images of baboons and then used paints to recreate their colourful markings.

3 Using two Makedo Re-clips, attach the cheek layers to the front of the face.

- Cut - Punch - Connect -

4 Next, attach the eyebrow+nose piece to the front of the Baboon Mask using two Makedo Re-clips.

5 Turn the mask over and attach the Baboon's hair on either side, but don't connect the Makedo Re-clips just yet.

6 Fold the handles into shape, insert them over the Makedo Re-pins and then secure in place using Makedo Re-clips as shown.

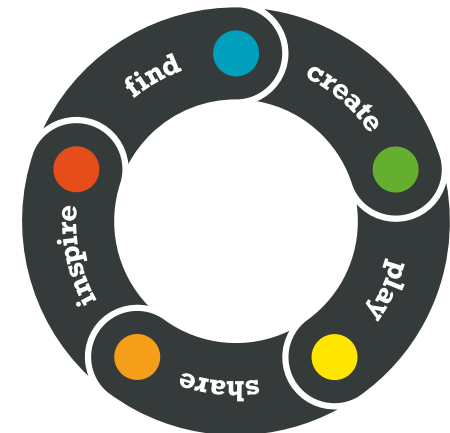

- Connect - Play - Share -

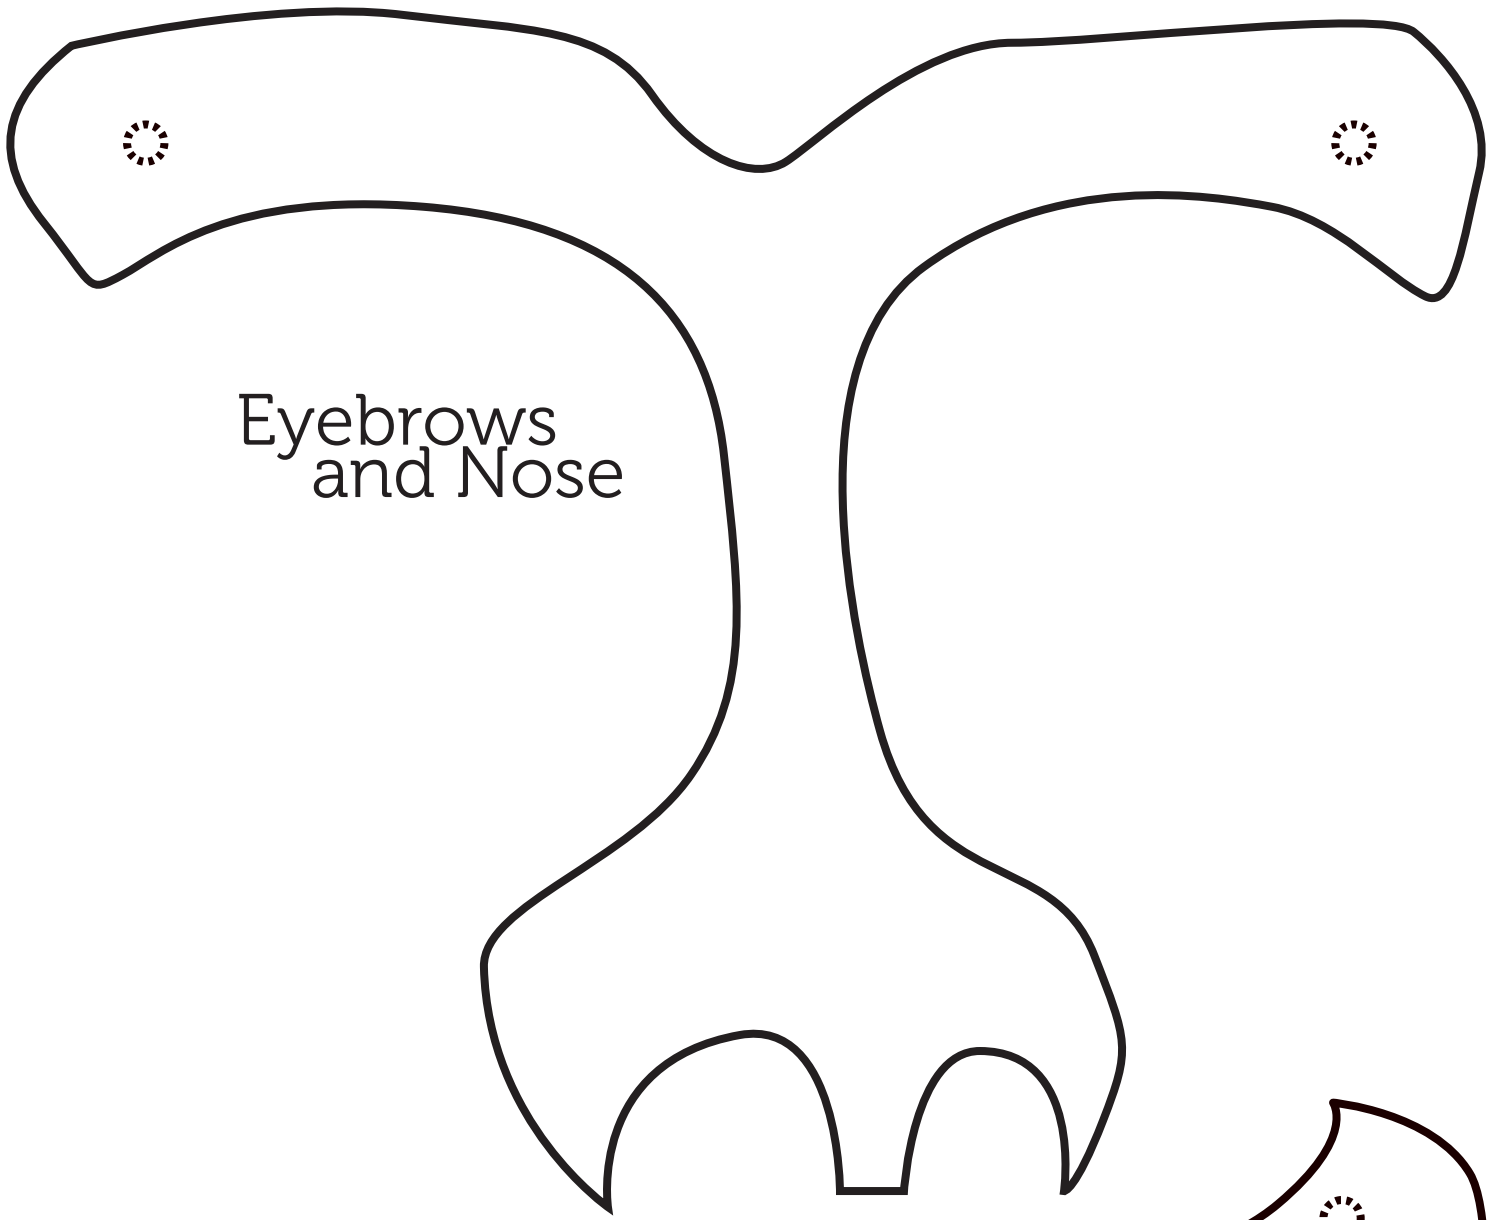

7 Repeat handle and hair attachment for both sides.

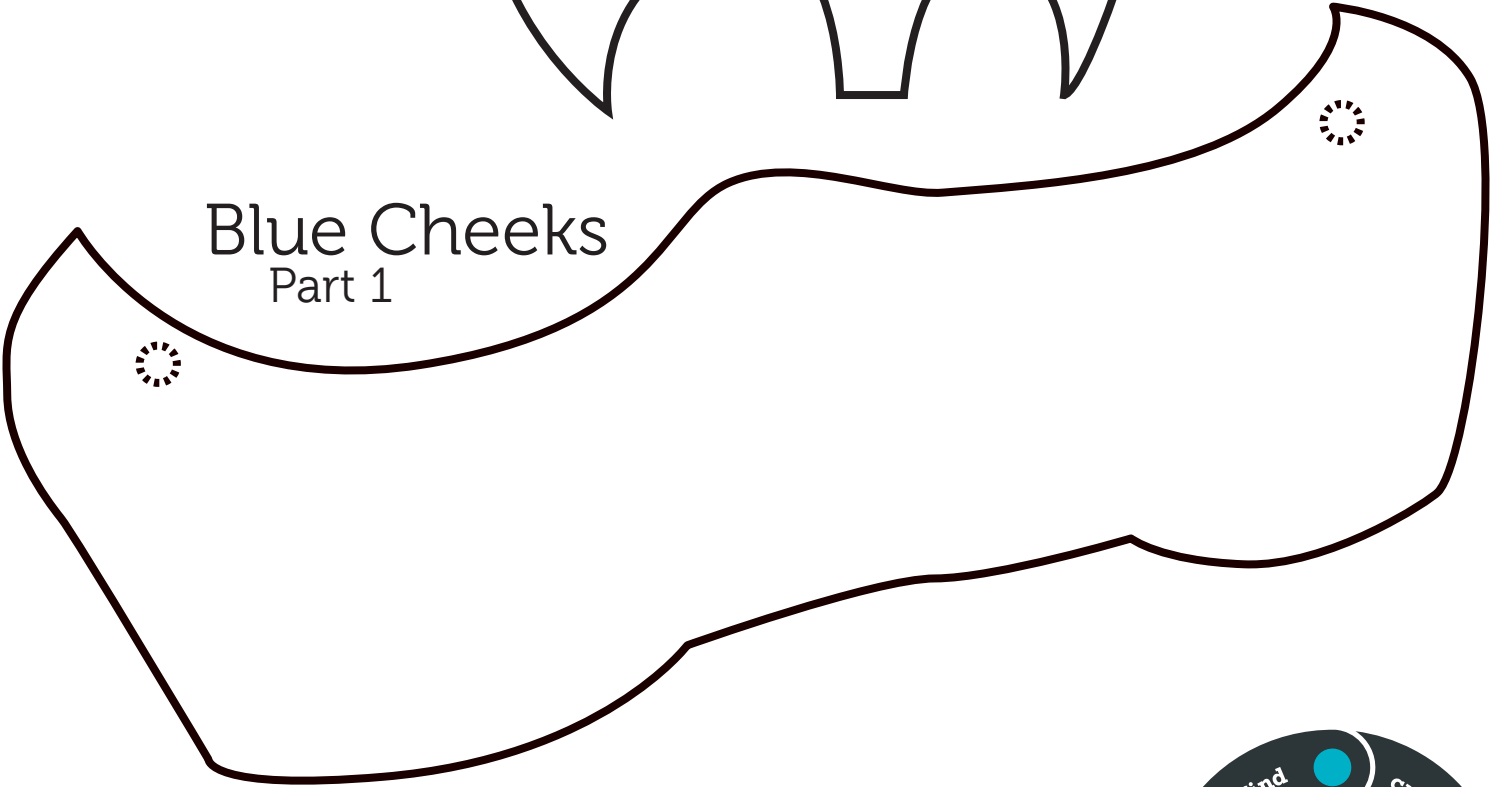

8 Your Makedo Baboon Mask is complete. Remember to share what you've made with us at mymakedo.com. We'd love to see it!
