

Electric Bicycle BoosterPack Hardware Kit

(Complete assembly requires hardware + electronics + 3d printed parts)

This kit contains the **Hardware parts only** needed to build the award winning "Bicycle BoosterPack" as seen on Instructables.com (For detailed assembly instructions keyword search "Bicycle BoosterPack"). This kit contains 70 total parts (27 unique parts as listed) and **does NOT include the 3D printed OR electronic parts needed to assemble the BoosterPack**. The associated 3D Printable stl files can be purchased separately on Pinshape.com (Keyword Search "bicycle boosterpack"). The complete list of required electronics & where to get them is provided in the BOM in the Instructable.

LEGAL NOTICE: This product is provided "as is" with no warranties of any kind, either express, implied, or statutory. Seller specifically disclaims and implied warranties of title, merchantability, fitness for a particular purpose, and infringement. We have no control over the correct use, installation, application, or day-to-day maintenance of our products, and no liability shall be assumed nor accepted for any damages, losses or costs resulting from the use or misuse of the product. Any claims arising from the operating, failure or malfunctioning etc. will be denied. We assume no liability for personal injury, property damage or consequential damages resulting from our product or workmanship. As far as is legally permitted, the obligation to compensation is limited to the invoice amount of the affected product. In other words: Please be careful assembling this kit and riding your new electric bicycle!
