

# SHOEMERANG

Throw this tri-blade, shoemerang and watch it return to your hand!

or alternatively use craft materials:

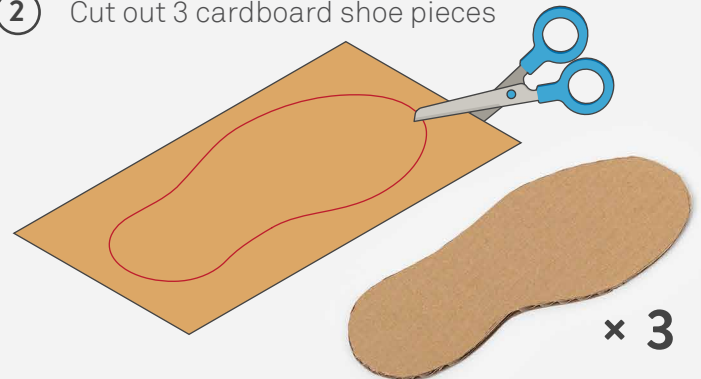

- ① Place a shoe on a cardboard sheet then trace 3 times

If right-handed, use left shoe   If left-handed, use right shoe  

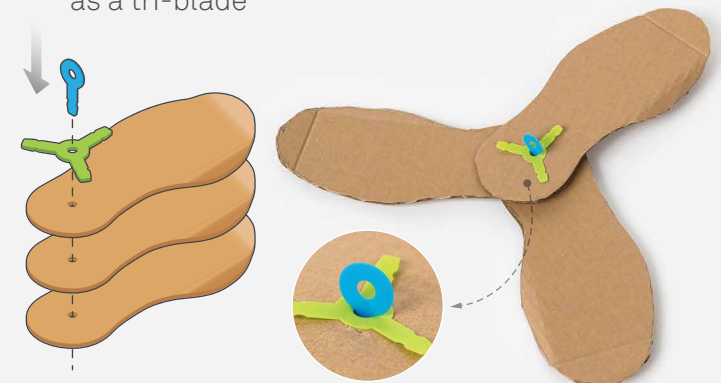

- ② Cut out 3 cardboard shoe pieces

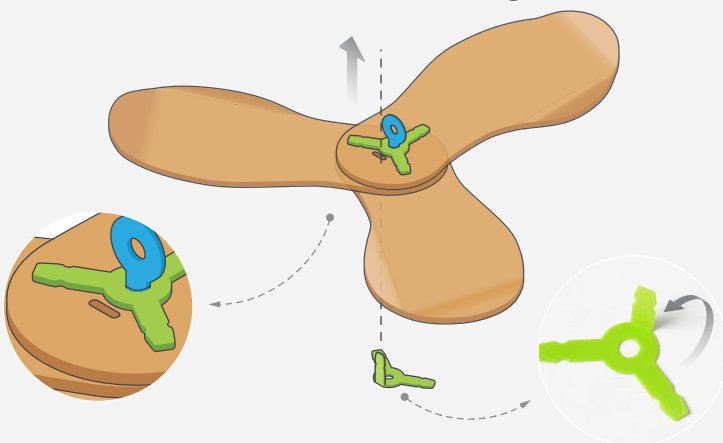

- ③ Fold up the toes then fold down the inside of each shoe

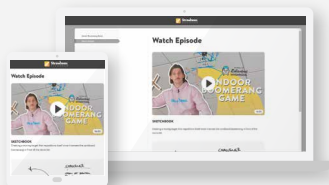

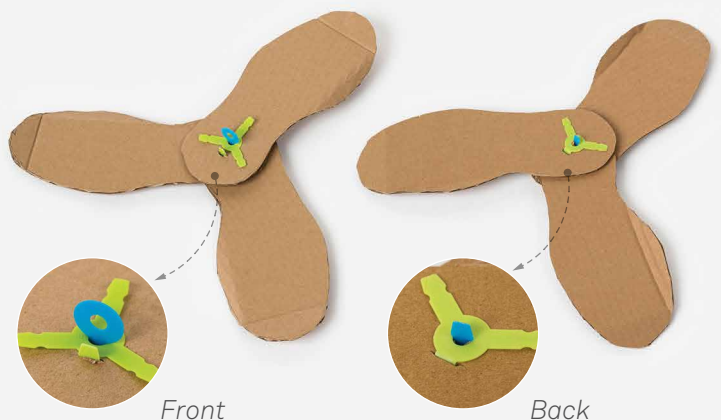

- ④ Punch a hole through the heels, then make a joint to hold together. Spread the cardboard pieces evenly as a tri-blade

- ⑤ Make a slot next to the joint then slide the 3-leg connector's leg from the backside of the shoemerang

- ⑥ Click the connectors together into locked joint, preventing the blades from shifting during flight. Test your shoemerang!
