## Paper Mario™ Shuriken

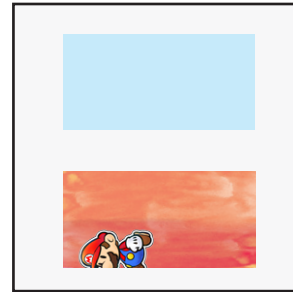

See instructions on page 2

# MARIO & LUIGI PAPER JAM

## Paper Mario Shuriken

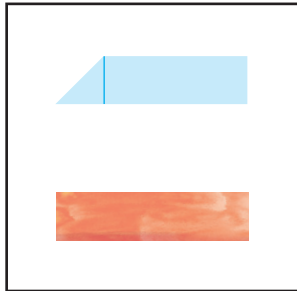

Kids, ask a grown-up for help  
and follow the steps.

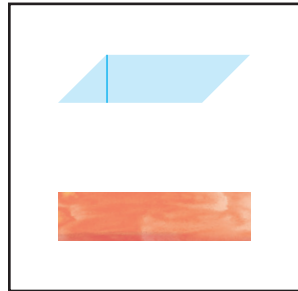

1. Take the two cut out sheets  
from page one.

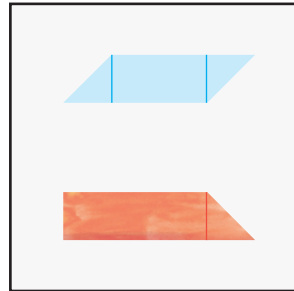

2. Fold both sheets in half along  
the long edge like this.

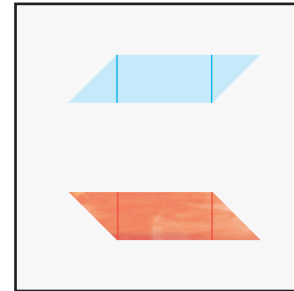

3. Fold the top of the short edge  
to form a point.

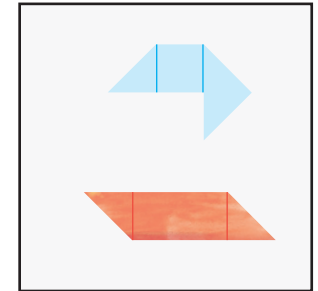

4. Repeat for both ends.

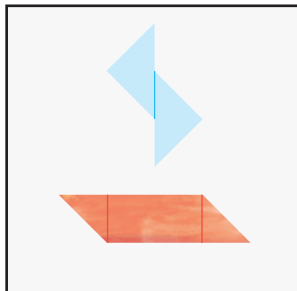

5. Fold the top of the other strip.

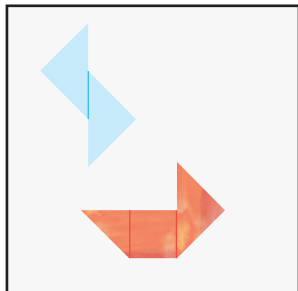

6. So it looks like this. Be sure you  
fold the strips ends so they are  
the opposite of each other.

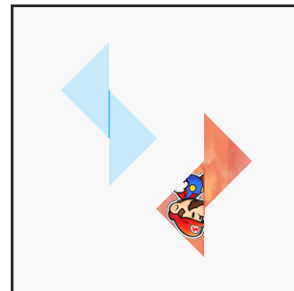

7. Fold the right side down at  
the half-way point.

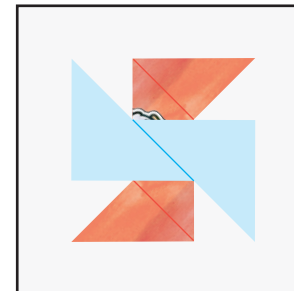

8. Then fold the left side up so it  
looks like this.

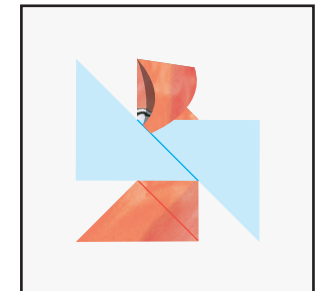

9. Then repeat, but going the  
opposite way: right side up...

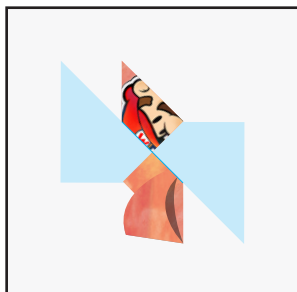

10. ...and left side down.  
Again they should be  
opposites of each other.

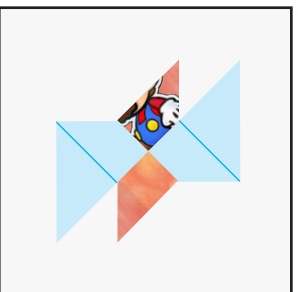

11. Then place like this. Notice the top  
piece has the join in the center and  
the lower piece has joins at the ends.

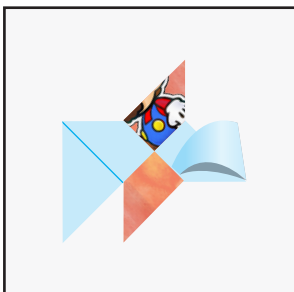

12. Fold at the join and tuck into  
the pocket.

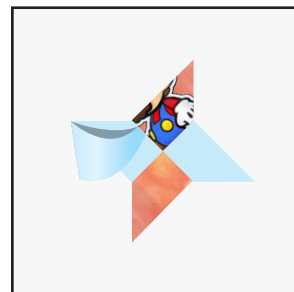

13. Repeat the fold and tuck  
with the other side as shown.

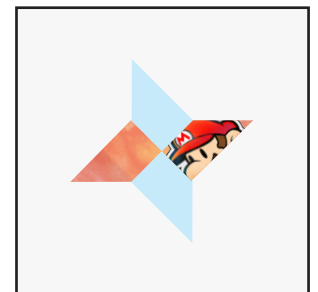

14. Turn over...

15. ... and fold at the join and  
tuck into the pocket

16. Repeat the fold and tuck  
with the other side as shown.

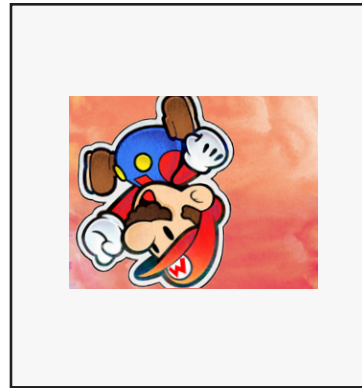

17. Flatten everything down.  
You are now a shuriken master.

## Paper Mario plane

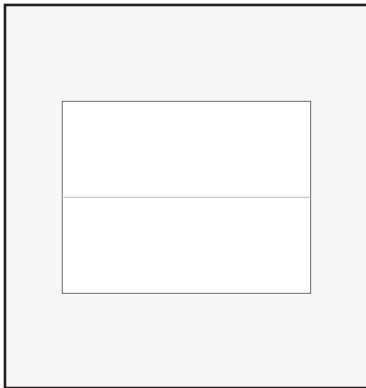

Kids, ask a grown-up for help  
and follow the steps.

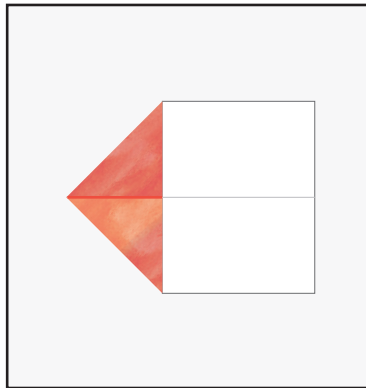

1. Cut out printed sheet from page three.

2. Fold in half along the long edge to make a centre fold.

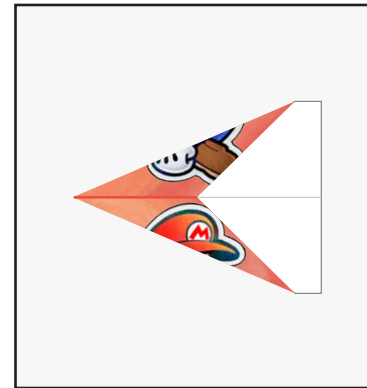

3. Unfold sheet, so it looks like image 1 again. Then flip sheet horizontally.

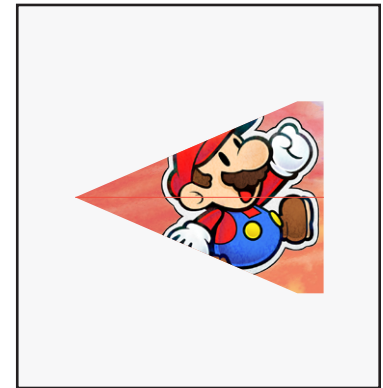

2. Fold corners to the center on one edge.

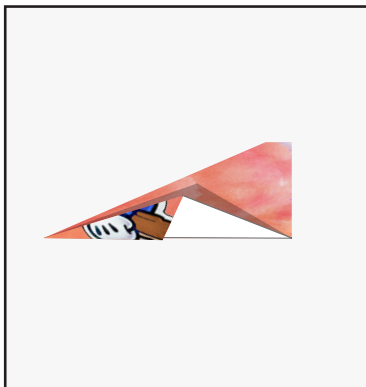

3. Fold again to the center line.

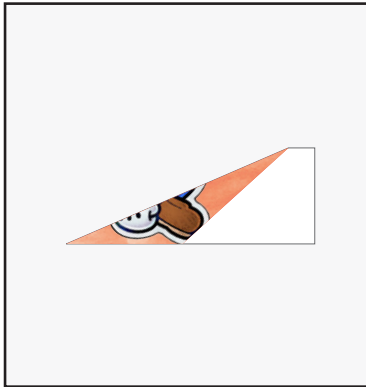

4. Repeat for both sides.

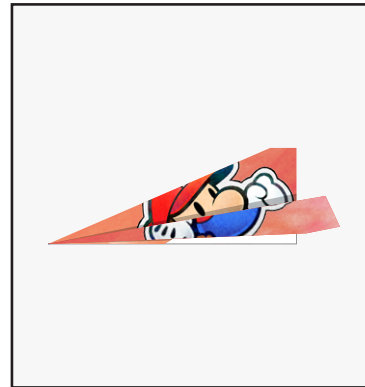

5. Turn over.

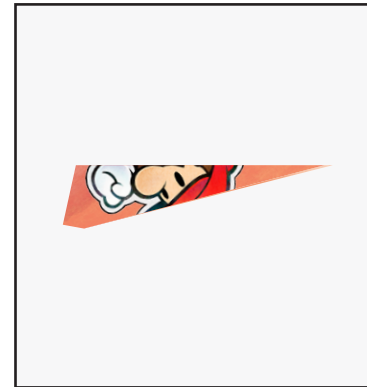

6. Fold in half along the centre...

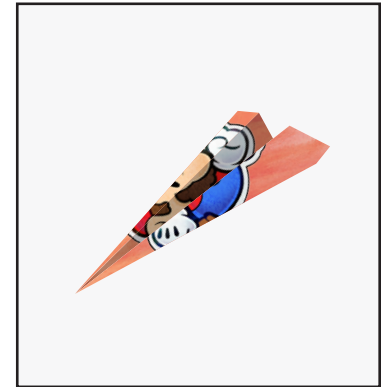

7. ....until it looks like this.

8. Fold the top of one flap in half downwards so it meets the fold.

9. Repeat for second flap. It should look like this.

10. Release flaps for finished plane.
