

Super Bright 8-Light LED Daylight

LED Daylight: Universal LED slim Daytime Running Lamp with super bright leds.

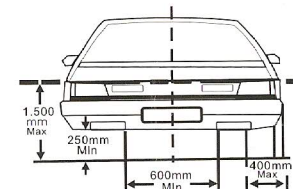

Benefits:

1. LED daytime running light has been an important roadsafety device in many countries. DRLs increase the visibility of your vehicles, make your cars easier to be seen, increase detection distance and reaction speed greatly, and reduce head-on and intersection car crashes.
2. Super easy DRL installation.
3. Long lifespan up to 50,000 hours, minimal maintenance cost.
4. Energy efficient. The energy consumption of LED DRLs is approximately 10% of conventional headlight systems.
5. The slim design and powerful white light are designed to make today's vehicles gorgeous.

Features:

1. 100% waterproof. The waterproof grade meets IP65 standard and can be used in stormy weather.
2. Pressure-resistance. It has been proved very good in pressure-resistance feature by conducting many experiments.
3. Adjustable bracket that fits various vehicles.
4. Turning off function.

Caution: 1. Disconnect power before installation. 2. Handle the set with care.

DC12V
